THE CONVALESCENT HOME, WELLESLEY, MASS.

*Will you not help a child toward
complete recovery?*

Think what a few weeks in the
country under such trained
supervision accomplishes.

We are grateful for any gifts of
money, clothing, toys, blankets,
bedding, etc., etc.

Please take the time to look
through this report.

Enclosed please find

The Convalescent Home of The Children's Hospital

WELLESLEY HILLS

MASSACHUSETTS

THE Managers of the Convalescent Home of the Children's Hospital present to the public their forty-third annual report.

This has been a very successful and satisfactory year for the Home, as we feel that the efficiency of the Home has been greater than in past years. One outstanding fact is that we have taken care of 120 more children than in any previous year. We have had 490 children this year—85 paid the board that we ask of \$7 a week, 121 paid from \$5 to \$1 a week, and 284 received absolutely free care. The seven dollars a week does not really cover the expenses of a child but, judging by the homes from which the children come, we have always felt that it was as much as we could ask. The cost of a child per day is about \$3.33.

We have only had 29 cases of contagion during the entire year, which, considering the number of children, is a good record, and proves that our preventive work shows results. The cases were 10 of whooping cough, 2 of mumps, 5 of chicken pox, and 12 of diphtheria. There has been no contagion of any kind since last June.

We have had 104 children who came to us after infantile paralysis. For this work we have a physiotherapist who comes to the Home for five days a week, and though this has added to our expenses we feel that it is money well spent.

We have a dentist who comes to the Home every other week, and who has worked on 153 children during the year. His work could be more efficient if we had the money to have a dental hygienist once a week to clean the teeth and prepare the mouths of the children for him.

Another experiment of the last few years that has proved a great success is our schoolroom. We now have a fairly well equipped schoolroom with one paid teacher and one volunteer

worker. The average has been about sixteen children a day well enough to receive benefit from the school. It is a great help to have these children who are able to be about occupied and interested, and it keeps them away from the more frail children. Incidentally, their parents are very much pleased to have them not lose so much of their school year as would be the case if we did not attempt this work.

One of our problems for the coming year is that it is absolutely necessary to re-equip our two main wards with new beds. The old beds have been in use for twenty-five years, and they are in such poor condition that it is really not safe for us to use them any longer. This will cost about five hundred dollars for each ward, and we are in the hopes that someone or some organization will be interested to help us toward this burden of expense.

Great interest has been taken in the Home by our old friends and also by some new ones. The Guild & Evans Alumni Association, the Needham Post of the American Legion, Wellesley College girls, the Pine Manor School, the Wellesley Hills Congregational Church, the Kiwanis Club, and many individuals have added to the comfort and the happiness of the children.

It seems at times to the Managers that we do not have the financial support that we should have from the public, which is due primarily to the fact that the Home is situated so far out in the country that people do not visit it and see for themselves these appealing little children. Also, the public has not yet learned the real value and saving in public health that efficient convalescent care means to the community.

What is our aim? What are we working for? Our aim is to be a clearing house for the Children's Hospital, so that their beds may be kept for the acutely ill, and ours filled with the long-time cases. We are working for complete cures, so that the child that has been originally admitted to the Hospital leaves the Convalescent Home a well child, and not one that without these added weeks at the Home would shortly be back again in the Hospital.

The Home is a separate organization from the Hospital and receives no financial aid from the Hospital, even though our work is so interwoven and our dealings with each other so satis-

THE MANAGER'S REPORT

factory. This excellent co-operation between the two institutions is due to the splendid and self-effacing work of Miss Smith, the Superintendent of the Hospital, and Miss Guillod, the Superintendent of the Home, who for years and years have worked out our policy of dealing with each other.

Grateful acknowledgment is extended to all those who have given in the past, and it is earnestly hoped that they, and many others, will feel inclined to contribute to this work of helping suffering children through their tedious weeks of convalescence.

LEONORE C. AMORY,

Secretary.
